

Library access and Navigation Guide

DID YOU KNOW OUR LIBRARY OFFERS THESE RESOURCES?

PRINTING AND COMPUTING RESOURCES

The Georgia Tech Library offers color-coded computing zones, virtual printing, and multimedia services so you can work, print, copy, and scan from almost anywhere in the Library using your own device and BuzzCard. Virtual printing is available through mycloud.gatech.edu → open the “Campus-2025” desktop. Send print jobs via myprintcenter.gatech.edu from VLAB or your own device. You can even access pro software like Adobe Creative Cloud, Office, and other media tools on the virtual machines!

PRIVATE STUDY AND COLLABORATION SPACES

<https://shorturl.at/1NOsL>

In addition to all the public spaces to sit in the library, there are also private rooms you can book. Note: you can only reserve one room at a time and it must be booked atleast 15 minutes prior. It is booked in 15 minute intervals. You can even add friends. Don't forget to bring your buzzcard though, as you will need that to sign in!

RESEARCH AND DATABASES

- **Databases & E-Resources**: access hundreds of academic databases, journals, e-books, and articles through the Library's online collections.
- **Citation Management Tools**: Support and workshops for Zotero and EndNote, including training sessions listed on the Library's Events calendar.
- **Research Consultations**: Schedule a 1-on-1 meeting with a subject librarian or expert for personalized help with finding sources, navigating databases, and building research strategies.
- **Research Guides**: Librarian-curated guides for specific subjects, courses, and research areas.
